The Course:

This is an urban planning skill building course. It is counted toward the group process professional competency area in the MUP curriculum. It introduces students to literature, case studies, and applied exercises focusing on planning skills relevant to: negotiations, public participation, and community organizing. The course emphasizes how these skills can be incorporated into an equity planning framework to empower disenfranchised communities and promote social justice. Course content and activities include: readings, lectures, discussions, simulation exercises, and fieldwork.

We are scheduled to meet in-person during the semester. If we are required to pivot to remote meetings Zoom links will be posted on the UBLeans site.

During the semester we will discuss the assigned readings, participate in simulation exercises, and do other activities. Everyone should be prepared to attend class and participate on a weekly basis.

If you have any questions during the semester, bring them to my attention. I will be available during office hours and by appointment. Also, you may contact me using e-mail.

Course Objective:

The course objectives for URP577 are listed below. The course assignments will be used to assess student learning of the course objectives. Course assignments that assess specific course objectives are identified in the course requirements section of this syllabus.

- **Course Objective 1:** Enhance negotiations skills used in urban planning practice, with an emphasis on strategies to apply those skills to reduce race, class, gender and other forms of inequality.
- **Course Objective 2:** Expand understanding of the role public participation plays in urban planning practice, with an emphasis on empowering race, class, gender and other disenfranchised groups.
- **Course Objective 3:** Introduce core community organizing principles and their application to urban planning practice, with an emphasis on empowering race, class, gender and other disenfranchised groups.
